Body Disposes of Heavy Docket and Adjourns Early.

## FOR MORE SMOOTH PAVING

Mr. Ellett Offers Ordinance to Continue This Work.

The Common Council transacted a large amount of business last night, and owing to the rulings and absolute order preserved by the new president, Mr. Peters, the body adjourned at 11 o'clock.

Some of the most important matters up were ordinances offered respectively by Messrs. Ellett and Ferguson, providing for appropriating \$50,000 to continue the work of smooth paving and inquiring into the expediency of general street sprinkling.

The body confirmed the action of the Finance Committee in selecting the site for the Jefferson Davis monument, and appropriating \$1,000 for the foundation. President Peters called the body to order at 8:30 o'clock and a quorum answered to their names.

The report of the Committee on Streets was read. It related mainly to improvements which were ordered without divisions.

The resolution changing the name of the Committee on Streets and Shenandoah Creek to the Committee on Streets was passed to order.

Much of the Finance Committee's report related to routine matters of little public interest.

The report contained an ordinance relating to the police force, and providing that \$1,200 be set aside for platons and other equipments for the police department. This was adopted. It was the result of the business transacted at the meeting of the Finance Committee during the afternoon.

The resolution fixing the site for the Jefferson Davis monument came up on motion of Mr. Pollard, and the action of the Finance Committee selecting Cedar and Franklin Streets as the site, and appropriating \$1,000 for the foundation, was read.

## Davis Monument Site.

The resolution was unanimously agreed to. A delegation from the Davis Monument Association was present, but it was not necessary that they should speak, as they did not appear.

Ion J. Taylor Ellyson, on behalf of the ladies of the Jefferson Davis Memorial Association, briefly thanked the body for its action.

The recommendation of the Water Committee with reference to raising the grade of the abutment for the abutment of electrolytic dam to the city's water mains by the street railways of the city before the United States District Court, was agreed to.

The ordinance making an appropriation of \$3,000 to continue the clear water supply, and the ordinance making an appropriation of \$1,000 to the city's water mains by the street railways of the city before the United States District Court, was agreed to.

The ordinance relating to increasing the Mayor's salary and allowing him a stenographer, was referred to the Committee on Finance.

The ordinance amending the pure milk ordinance so as to relieve the merchants of the \$2 tax and to pay the inspector out of the general fund, caused some discussion.

## Many Ordinances.

It was finally recommended to the Committee on Charter, Ordinances and Reform, with an amendment offered by Mr. Ellett, that the amendment go into effect January 1, 1905.

The body referred to the Finance Committee the joint resolution from the Board providing for looking into the question of establishing an electric light and power plant in the city.

The Council concurred in the ordinance making three members of any committee a quorum for the approval of pay rolls. On roll call a large number of ordinances and resolutions were offered, and most of them were referred.

Mr. Ferguson offered an ordinance, which was referred, directing that the Health Committee look into the question of sprinkling the streets generally, and it was referred to the Committee on Finance.

Mr. Ellett directing the Finance Committee to appropriate \$50,000 for the year for continuing smooth paving.

Bottom out through a resolution providing the City Attorney with a typewriter machine and telephone, and the body adjourned at 11 o'clock.

# WILL INTRODUCE AMERICAN METHODS

Visit of Archbishop of Canterbury May Result in Changes in English Church Life.

(Special Cable to The Times-Dispatch. Copyright 1904.) LONDON, October 3.—The people of England are exceedingly well pleased with the cordial reception given to Dr. Davidson, archbishop of Canterbury, by the American people. It is thought that this visit of the primate of the English church to the United States will bring about results, especially that it will result in bringing closer together the church and the people. It is well known here that Dr. Davidson, while in America has learned to admire Bishop Potter, of New York, even more than before.

The archbishop was agreeably surprised to note the large attendance at New York churches on Sunday, and the fact with which the audience followed the sermons, and attributes this to the splendid work done by Bishop Potter, who has understood how, at a most difficult time to arouse interest in church affairs, when the general tendency is to stay away from churches on Sunday, the fact is, therefore, pretty safe to conjecture that American church methods will be introduced in this city, and there are many who believe that this will in the end result in a revival of interest in church affairs in London.

Passenger and Power Cases Heard by Judge Waddill Yesterday.

## PETITIONERS INTERVENE

Argument Against Federal Court Jurisdiction and Perpetuating Receivers.

An array of brilliant attorneys yesterday waged a war of wits and words in the Circuit Court of the United States before Judge Edmund Waddill, Jr., over the question of making permanent the receivers and perpetuating the injunction granted by Judge Waddill in the suit of Bowling Green Trust Company vs. the Virginia Passenger and Power Company, Richmond Passenger and Power Company, and others.

The order in the case was first made returnable in September, but the return day was deferred to yesterday. In connection with the argument on the question of making permanent the appointment of receivers for the co-ordinated railway properties and perpetuating the injunction, the court also received the petition of intervention by certain creditors of the company, in which the Federal Court is urged to surrender jurisdiction in the case to the State Court, and the proceedings were first instituted against one of the defendant companies.

The case was argued for the petitioners by Judge L. L. Lewis, Hon. Alexander Hamilton, Mr. Richard B. Davis and others, while Munford, Hinton, Williams and Anderson, Frank W. Stratton, and others represented the Bowling Green Trust Company, the Goulds and the Passenger and Power Company.

At the conclusion of the argument, Judge Waddill announced that he would consider the case until Saturday and would then deliver his opinion. Thereupon court adjourned until Saturday.
